Orto de’ Pecci

Visit Siena

A green valley pause below the busy streets around the Campo.

Build in the walk down and the climb back. Check the operator separately if you want to eat: visiting the green space and getting a restaurant table are different plans.

Orto de’ Pecci | Open Google Maps

Why stop here

This green space sits within the walls, below the area behind Palazzo Pubblico. It offers a change of setting after stone streets and museum rooms. Its social-cooperative setting is part of what makes the place distinctive.

A useful visit

Choose it for a proper outdoor pause. Leave enough time to sit and enjoy the valley before returning to the centre.

What to consider

Quiet does not mean flat access from the Campo. Rain can make paths less comfortable, and the uphill return matters with luggage, a stroller or tired legs.

Where to go next

Piazza del Campo | Orti de’ Tolomei | Fisiocritici Natural History Museum
